Rex Buchanan and David Fennell will provide tools for fabricators to talk about the beneficial aspects of structural steel. This includes 6-key messaging topics, economics, parking, fabricator partnership program, and branding.

4:00 - 5:00 PM | PROGRAM

The Power of Key Performance Indicators (KPI's)

This interactive program will explore how structural fabricators can use KPI's to improve their company's performance and how KPI's can be utilized to both motivate and reward employees. We'll take a deep dive into KPI's to monitor and manage SAFETY, QUALITY, PRODUCTIVITY, ASSET UTILIZATION, CUSTOMER SERVICE, EMPLOYMENT, SALES, INVENTORY, and PROFITABILITY.

In advance of our meeting in Las Vegas we will be conducting a member survey regarding the use of KPI's. The results of the survey will be revealed during the presentation.

A panel of CFA members will share how they measure various KPIs and how they manage performance. Following the panel discussion, we will breakout into small groups to discuss and explore topics such as how companies are using KPI's to reward employees. We will also discuss the concept of standardizing some KPI's so that CFA member companies could benchmark their results with other CFA members.
